## FIRM RESUME

New York, NY

---

### **Overview**

Entwistle & Cappucci is a national law firm with top-flight legal representation and exceptional service to clients that include major public corporations, a number of the nation's largest public pension funds, governmental entities, leading institutional investors, domestic and foreign financial services companies, emerging business enterprises and individual entrepreneurs.

The lawyers who founded this firm in 1998 did so with a fresh commitment to excellence, integrity and creativity. Our strong reputation among clients, adversaries and the judiciary is not inherited from prior generations. Instead, we have earned our reputation day-by-day, client-by-client and matter-by-matter. Our approach to the practice of law is business-oriented, pragmatic and collegial.

As an entrepreneurial firm, we approach the issues facing our clients not merely as lawyers but as business owners who understand the realities of the modern business environment. We partner closely with our clients both in forging efficient solutions to the challenges they face and in identifying the opportunities open to them. This practical approach assists our clients in meeting their business objectives and rewards us with a loyal and expanding client roster of which we are immensely proud.

Internally, we maintain a collegial environment that attracts and retains highly qualified lawyers. Equipped with specialized knowledge relating to their respective areas of expertise, our lawyers engage in a robust exchange of ideas aimed at expertly advancing and protecting our clients' interests with the highest degree of professionalism and integrity.

### **Practice Groups**

We organize the firm's lawyers into a number of highly specialized practice groups capable of responding effectively, efficiently and expeditiously to our clients' increasingly diverse needs. Our practice groups, however, do not operate in isolation; teams of lawyers from any number of these specialized groups often work together to provide a seamless interdisciplinary approach that we find critical to effective problem solving.

In the following pages, we provide summaries of our approach to the law in the principal areas of our practice:

- Antitrust Litigation;
- Appeals;
- Bankruptcy Litigation;
- Business and Commercial Litigation;
- Corporate;
- Corporate Governance;
- Governmental Affairs;
- Immigration;
- Insurance Litigation;
- Mergers, Acquisitions, Capital and Exit Strategies;
- Securities Litigation; and
- White Collar Criminal Defense and Internal Investigations.

### **Antitrust Litigation**

We have extensive experience in antitrust litigation, primarily in the areas of price-fixing, market division, tying and monopolization. Our lawyers have also litigated antitrust cases involving zoning, patents and major league baseball licensing among many others, and can offer related counseling.

### **Appeals**

The firm represents clients before state and federal appellate courts across the country. Whether seeking a reversal of an adverse result or the affirmance of a favorable outcome, clients routinely turn to our appellate lawyers for their careful assessment of the viability of an appeal, mastery of the trial court record, well-crafted briefs and effective oral argument.

### **Bankruptcy Litigation**

We have substantial experience litigating complex bankruptcy matters. Among other things, we have represented the Retired Employees Committee in the OMC bankruptcy, equity holders in the American Bank Note bankruptcy and the State of Florida in connection with the Enron bankruptcy. We have also served as special litigation counsel for the Global Crossing Estate Representative in connection with the Global Crossing bankruptcy. In addition, we represented the New York State Common Retirement Fund in the Refco, Inc. bankruptcy and related litigations, and in the Lehman Brothers bankruptcy.

### **Business and Commercial Litigation**

Our commercial litigators are devoted to the creative resolution of complex business disputes on behalf of both corporate entities and individuals. We represent a diverse client base in a correspondingly broad array of matters. Although the nature of these disputes

may vary greatly, our approach to resolving them is consistent. From the outset, we painstakingly marshal the relevant facts, objectively analyze the controlling law, assess the underlying commercial realities and develop a strategy to achieve the client's business objectives as efficiently and expeditiously as possible. Each of our commercial litigators understands this strategy, which is applied to every business dispute we encounter.

Our team approach guarantees that each lawyer knows who is doing what and why they are doing it. This allows us to staff our cases leanly from a deep bench of experienced litigators, and we can rapidly expand or contract our litigation teams as circumstances dictate. However, from start to finish, we maintain a core team of experienced litigators whose overriding objective is to materially advance the client's objectives on a daily basis. "Litigation for litigation's sake" has no place in our pragmatic and business-oriented approach. We understand firsthand that litigating complex business issues is enormously expensive and disruptive. For this reason, we vigilantly explore all available means short of a full-blown litigation to effect expeditious and favorable resolutions to disputes, whether through direct negotiation with our adversaries or some means of alternative dispute resolution, such as mediation or arbitration.

### **Corporate**

We advise clients with respect to general legal matters relating to their business operations, including the proper choice of entity and the formation of corporations, limited liability companies and partnerships; negotiation and documentation of shareholder agreements, limited liability company agreements, partnership agreements, employment agreements and severance agreements; and partnership dissolutions and other business separations.

The firm also negotiates, structures and documents a wide variety of transactions including consulting agreements and many other commercial agreements and contracts that are dictated by the business needs of our clients. For matters involving intellectual property and information technology, we negotiate and document licenses, franchise and distributorship arrangements, consulting agreements and related agreements.

A portion of our client base is comprised of foreign investors who buy and sell U.S.-based assets and businesses. We understand the various challenges facing those making cross-border investments in this country and can structure deals that maximize their opportunities and minimize their exposure, just as we assist domestic businesses explore, develop and engage in business transactions in foreign countries.

Finally, many of our clients have accumulated substantial assets and want to develop comprehensive estate plans that reflect their priorities. We work with individuals and families to integrate personal, business and philanthropic needs into estate planning.

### **Corporate Governance**

We have extensive experience advising public and private institutional clients on corporate governance matters, including board structure and composition, by-law and certificate of incorporation provisions, takeover devices, management remuneration, and accounting and reporting processes. We are well equipped to provide in-depth analyses of governance practices and promote governance issues that best serve the long-term investment objectives of our institutional clients.

We also litigate issues of corporate and board conduct arising from business transactions. These matters can involve issues such as the fairness of the transaction based on both pricing and process; the validity of take-over defenses such as poison pills and defensive

restructurings; and the fairness of executive compensation. Such cases commonly include derivative claims alleging that the corporate entity's board of directors breached their fiduciary duties and failed to exercise proper business judgment.

### **Governmental Affairs**

Our governmental affairs practice is national in scope. We represent clients requiring expertise in the development, management and resolution of public policy issues before the governmental community. We work to ensure that our clients have the necessary access to and level of advocacy before decision-makers in government.

### **Immigration**

Immigration issues have proliferated as the global economy increases the demand for skilled foreign workers. We routinely counsel clients in developing strategies to address workplace immigration issues that ensure compliance with the controlling law while facilitating competition in the global marketplace.

### **Insurance Litigation**

We have a long history of representing insurance carriers in the negotiation and litigation of complex coverage matters. In addition, carriers routinely look to our litigators to handle the most challenging claims asserted against their insureds.

We also have served as counsel to the New York State Superintendent of Insurance in his capacity as rehabilitator of troubled insurers. In that capacity, we have been called upon to determine why those insurers failed or faltered, and prosecute actions to recover wasted or misappropriated assets. We also have pursued actions against third parties, including accountants and brokers, for their role in precipitating the failure of these insurers.

### **Mergers and Acquisitions**

We help companies, boards of directors and shareholders/owners manage their interests in mergers, acquisitions, dispositions and leveraged buy-outs. Unique issues confront entrepreneurs and capital providers who engage the firm for its experience in venture capital deals. These include start-up companies, emerging growth companies and mature businesses in a wide variety of industries -- from conventional to those that are technology-based industries. We can represent either portfolio companies or capital providers engaged in equity, mezzanine and/or senior debt financings.

Just as important as helping clients close a deal is helping clients choose the proper exit from a deal which can include sales, public offerings, refinancings, recapitalizations, restructuring or the spinning-off of businesses.

### **Securities Litigation**

The firm fields one of the nation's premier teams of securities litigators. This team has prosecuted a full range of securities matters on behalf of public pension funds and other institutional investors. We represent clients in direct, or opt-out, actions; class actions alleging securities fraud and ancillary matters relating to insolvency and foreign judicial proceedings. We also prosecute shareholder derivative actions alleging breach of fiduciary duty, corporate waste, and self-dealing, among other things. We seek monetary damages for investment losses attributable to fraud as well as corporate governance remedies in the majority of these matters.

Our securities litigators have recovered more than \$3 billion on behalf of investors from some of the most significant securities fraud actions of the past five years, including *In re Royal Ahold Securities Litigation* (a \$1.1 billion recovery), *In re BankAmerica Securities Litigation* (a \$490 million recovery), *In re DaimlerChrysler Securities Litigation* (a

\$300 million recovery), *In re CMS Energy Securities Litigation* (a \$200 million recovery), and *In re Dollar General Securities Litigation* (a \$172 million recovery). Our experience and ability in litigating securities matters is demonstrated not only by the results that we have achieved, but also by the roster of institutional clients who seek our advice. We are proud to include a number of the nation's largest and most sophisticated public pension funds among our clients.

Our Securities Monitoring and Reporting Program provides our institutional clients with the most complete information available to evaluate potential courses of action - whether to pursue securities class action litigation as a lead plaintiff; whether to litigate claims directly in a private action; or whether to forego litigation entirely. This program offers regular review of our clients' latest securities holdings in light of emerging market conditions and corporate developments to identify circumstances in which investment losses are likely attributable to fraud. Using this program we calculate client losses under a variety of loss calculation methodologies. We then prepare detailed reports describing, among other things, the factual and legal underpinnings of potential claims; the likelihood of recovering all or a portion of our client's losses; strategies for resolution; and any opportunities to advocate corporate governance changes.

### **White Collar**

Our white collar criminal defense group has decades of experience representing corporate entities and individuals in criminal investigations and proceedings. Led by a team of former federal and state prosecutors, this group represents our clients in every phase of a criminal case -- from the inception of an investigation, before the grand jury, at trial and throughout post-trial proceedings. However some of the group's most important and sophisticated work takes place before criminal charges even materialize. Drawing on years of

front-line experience, with a credibility developed over years of working with governmental authorities, our lawyers have had considerable success in persuading prosecutors not to pursue criminal charges in the first place -- thus protecting the client from the legal, financial and media fallout of a criminal prosecution.

As former prosecutors and long-time defense lawyers, members of our white collar criminal defense group are also uniquely qualified to conduct internal corporate investigations into suspected wrongdoing or improprieties. Working with accountants, computer forensic and other consultants as needed, our lawyers assist clients in taking a proactive role in uncovering improper conduct by their employees, vendors, officers, directors and others.
